COMPANY PROFILE

Founded in 2006, Al Sanna Tanks & Sheds Industries L.L.C has established itself as a leading innovator in the UAE, specializing in Glass Fiber Reinforced Concrete (GFRC) and Glass Fiber Reinforced Plastic (GFRP). Over the years, the company has built a strong reputation for delivering high-quality solutions that combine advanced engineering with exceptional craftsmanship.

AL SANNA

شركة السنا لخزانات ومستودعات الصناعات ذ.م.م

AL SANNA TANK & SHEDS IND LLC

FIBER GLASS MANUFACTURING, GRC, GRP, GRE & GRG DIVISION

We offer comprehensive end-to-end services that include design, detailing, fabrication, and installation, ensuring precision, efficiency, and reliability in every project we undertake. Headquartered in Sharjah, UAE, our organization brings nearly three decades of industry expertise, positioning us as pioneers within the Arabian market.

We take great pride in our ability to integrate cutting-edge technology with skilled workmanship to produce a diverse range of solutions tailored to the unique requirements of our global clientele. Every product and service we deliver is crafted with a focus on durability, functionality, and aesthetic excellence. Our commitment to quality ensures that clients receive solutions that not only meet but exceed international standards, reflecting our dedication to long-term performance and customer satisfaction.

Yours truly,

Engr. Vijaya Kumar

General Manager

Quality and Sustainability Policy

This policy outlines our commitment to delivering high-quality and sustainable GFRC, GFRP, and precast concrete products. We maintain strict quality checks, continuously improve our processes, and use certified, environmentally responsible materials to ensure reliability, durability, and ethical production in every project.

AL SANNA

شركة السنا لخزانات ومستودعات الصناعات ذ.م.م

AL SANNA TANK & SHEDS IND LLC

FIBER GLASS MANUFACTURING, GRC, GRP, GRE & GRS DIVISION

Ethical sourcing is central to our operations. We work exclusively with suppliers who demonstrate environmental responsibility and follow recognized global standards. Our team undergoes continuous training in safety and quality, ensuring that every product we deliver is strong, reliable, and built to last.

Sustainability remains a core focus for us. We consistently work to minimize waste, use environmentally friendly materials, and participate in local initiatives that contribute to a cleaner and greener future.

Customer satisfaction is the driving force behind our success. We value client feedback to enhance our services and offer warranties that reinforce trust and confidence in the products we deliver. In addition, we ensure full compliance with all regulations through routine audits and reviews, reflecting our commitment to quality, integrity, and ongoing improvement.

WE TAKE PRIDE IN EVERYONE RETURNING HOME SAFELY EVERY DAY

Al SANNA is committed to the protection and enhancement of the environment. This will be delivered by implementing and maintaining an environmental management system that applies to services provided by its permanent offices and to its construction activities. This includes activities, products and services provided by organizations working on behalf of AL SANNA

A summary of the AL SANNA HS & E policy statements are posted on the designated safety notice board(s). The general manager has full access to systems available for inspection at any time.

Pre tender h&s plan information has been taken into account in the developing this construction phase plan.

It will be maintained and developed throughout the business to ensure it constantly reflects the managementof specific risks to health, safety & environment arising from the business

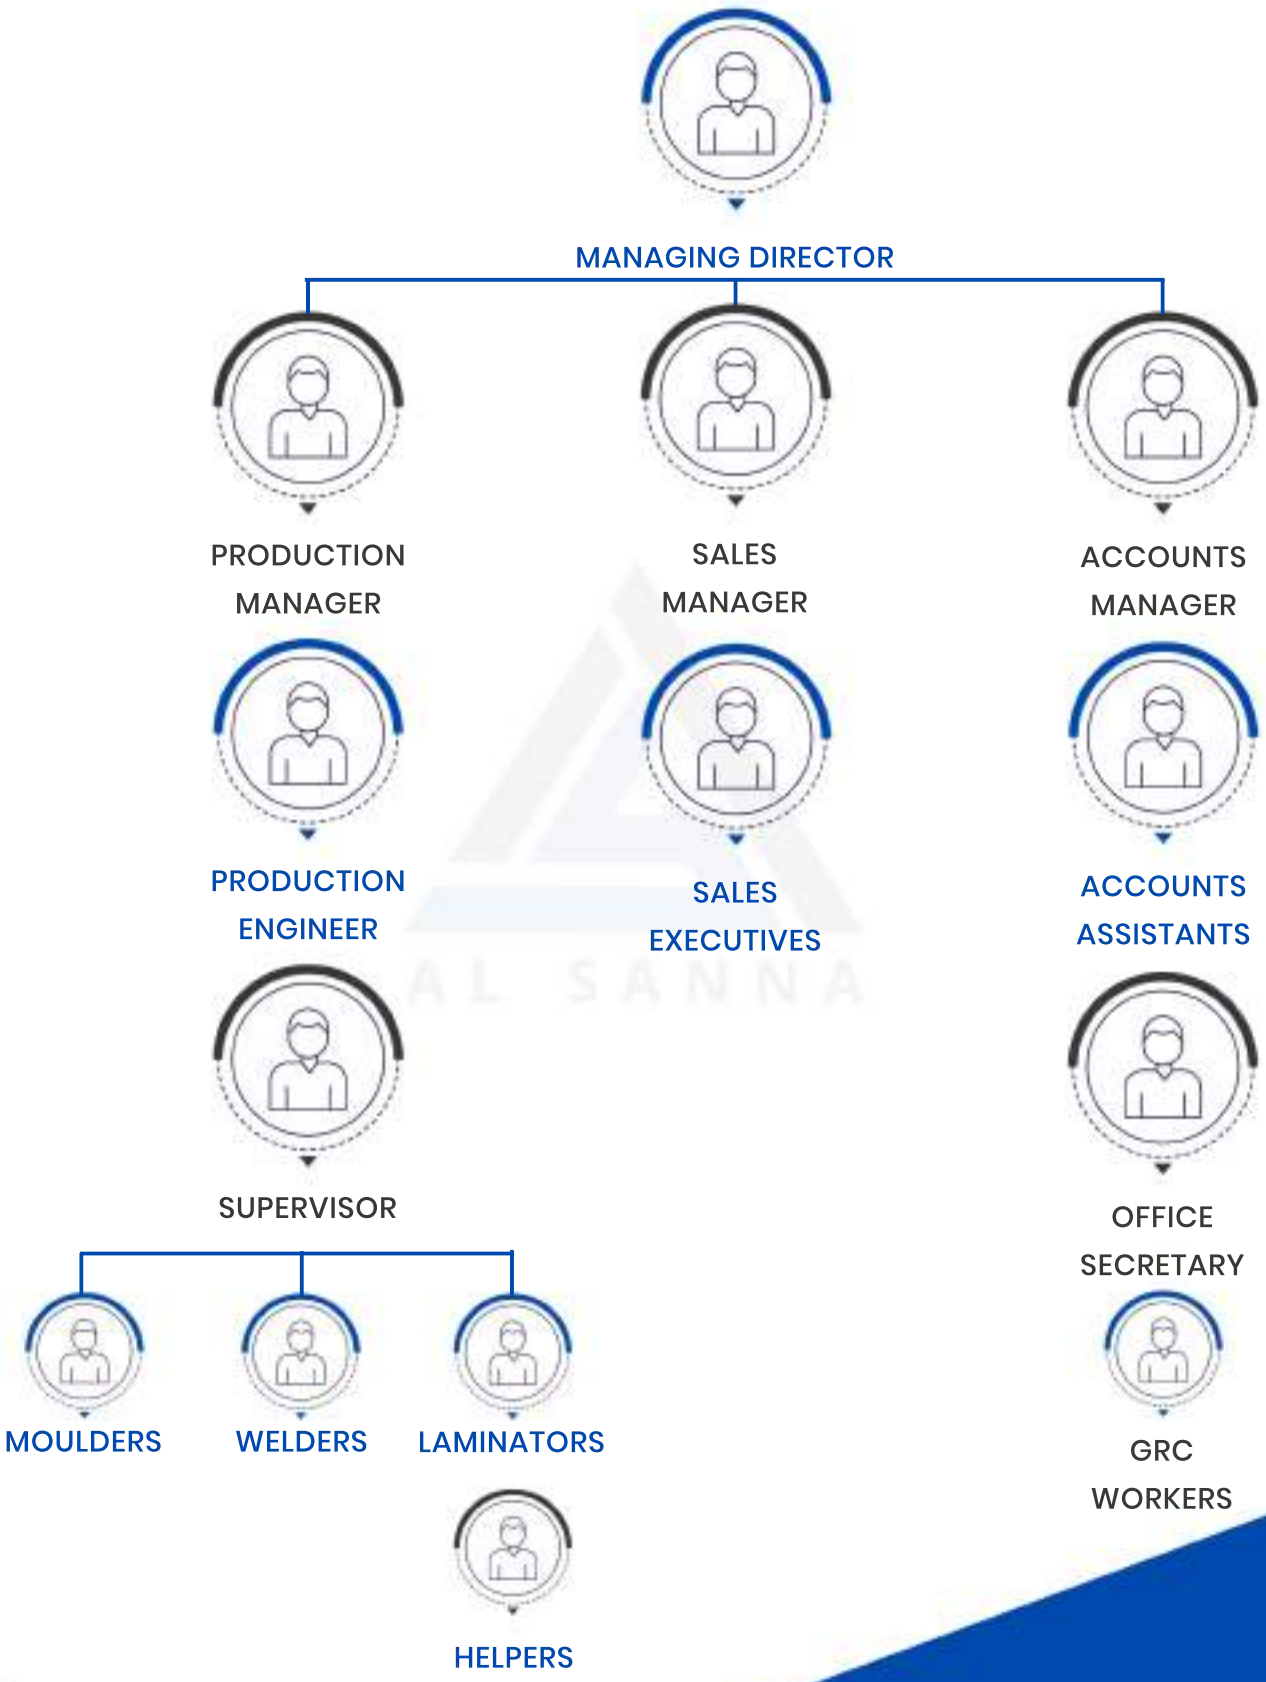

This plan describes how we manage health, safety and environment on this project. I expect everyone working on the project to comply with its requirements and work to maintain the standards it has set.

ORGANIZATION CHART

BRIEF DESCRIPTION

GLASS FIBER REINFORCED CONCRETE (GFRC/GRC)

It is a combination of white cement. Silica sand, water and glass fibre with necessary admixtures. These products are used for mainly making decoration on buildings and villas (external & internal) as per the consultant/architects choice.

Some of the advantages of this material are as follows.

- Light weight and Maintenance free
- Possibility of moulding any shape & size
- Colour combination as required
- Finishes available in Smooth, Texture & Stone finish

GLASS FIBER REINFORCED PLASTIC (GFRP/GRP)

It is a sophisticated material of construction and is made of a combination of Polymer Resins and Glass Fibre. This is generally attained by Impregnating Glass Fibre Strands, Woven Roving .... etc. with Resin, Accelerators, and Catalyst in appropriate proportion which transforms to a hard and infusible stage of Non Corrosive material.

Some of the advantages of this material are not limited to the follows.

- Transformation of any shape as per Designer's choice
- Light weight
- High Tensile strength
- High chemical resistance
- Good insulator property to electricity and sound
- Good resilience to any type of impact
- Good Translucency and colour impregnation if required

SPECIFICATION:

The specification will be followed generally according to the British Standards. If other specification is required by the Client, it can be considered.

MARKETING POTENTIAL:

Glass Fiber Reinforced Concrete (GRC) products are used for Making decorations in Buildings, Villas, Public/Private parks, Sound barriers, Planter ports, Partition walls .... etc. as per Consultant/Architect's and Client's choice.

Glass Fiber Reinforced Plastic (GRP) are being used in almost every field of operation such as Civil Engineering, Mechanical Engineering, Marine Engineering, Chemical Engineering, Electronics and Transportation ... etc.

Since GRC & GRP products are highly market potential item in the Construction field and the main market for these products split in to

A. Domestic Consumer market
B. Industrial market.

MACHINERY AND TOOLS FOR GRC & GRP WORKS

DESCRIPTION	UNIT	QTY
GRC Spray machine	Nos.	1
High Shear Mixture machine	Nos.	1
Compressor 20 HP	Nos.	1
Wood Cutter (Table Saw)	Nos.	1
Wood planer machine	Nos.	1
Hand Cutter (jig Saw)	Nos.	7
Weighing scale for precision	Nos.	1
Weighing machine (1000 Kg)	Nos.	1
Hand mixing drill (GRC)	Nos.	2
Hand mixing drill (Gel coat)	Nos.	2
Grinder machine (Big)	Nos.	4
Pedestal drilling machine	Nos.	1
Grinder machine (Small)	Nos.	12
Hilti Drill machine	Nos.	4
Screw tighter machine	Nos.	3
Bolt tighter machine	Nos.	6
Welding machine	Nos.	1
Buffing machine	Nos.	1
Spray painting machine	Nos.	1
Blower machine	Nos.	1
Exhaust fan	Nos.	4
Generator	Nos.	3
Try board	Nos.	1
Chain Pulley 2.0 Ton.	Nos.	1
Chain Pulley 1.50 Ton.	Nos.	2
Hoist machine 1.0 Ton.	Nos.	1
Miscellaneous items & tools for carpentry works	Lump sum	
Miscellaneous materials including coverall & Safety shoes (PPE kit)	Lump sum	
Forklift	Nos.	1

LIST OF WORKWRS

Carpenters GRC / GRP	2 Nos.
GRC Production	8 Nos.
GRP Production	6 Nos.
RC/GRP Fitters (Site)	8 Nos.
Finishers (GRC/GRP)	4 Nos.
Helpers (GRC/ GRP)	10 Nos.
